EDUCATION

CUHK-Shenzhen Information Management (AI Focus) **Sep 2026 - Jun 2028**
Coursework: Generative AI (RAG), Business ML, Data Mining (Text and Networks), and Analytics for Management Consulting.

Nanjing Normal University BA in Economics | GPA 88 **Sep 2022 - Jun 2026**
Econometrics, Applied Statistics, Corporate Finance, Financial Statement Analysis | Outstanding Student Scholarship (2022–25)

PROFESSIONAL EXPERIENCE

Guotai Haitong Securities *Equity Investment Banking Intern* **Jul 2026 - Sep 2026**
- Due diligence: Supported equity filings by checking company history, business models, financial records and public disclosures. Compiled working papers, source references and an outstanding-issues log for the deal team.
- Financial data checks: Used Python and Excel to clean financial and industry data, reconcile definitions and verify financial linkages. Delivered profitability and comparable-company valuation schedules for transaction review.
- LLM-assisted review: Screened disclosures, regulations and inquiry topics with an LLM, then checked original sources. Logged evidence locations, missing materials and follow-up items for filing preparation.

Leapmotor *Data Analytics Intern* **Mar 2026 - Jul 2026**
- Campaign data: Structured impressions, clicks, leads and costs by channel, vendor, vehicle and campaign stage. Maintained daily and weekly monitoring reports and exception logs to support campaign reviews.
- Metric validation: Coordinated vendor data pulls, mapped fields and reconciled metric definitions. Used SQL, Excel and BI to compare channels, creatives and audiences, delivering review charts and budget-pacing recommendations.

Tianzhi International Accounting Firm *Liquidation Audit Intern* **Jul 2024 - Sep 2024**
- Liquidation and confirmations: Checked vouchers, creditor ledgers, claims and confirmation replies. Coordinated tax and bank records, delivering creditor schedules, confirmation controls and exception logs for review.

State Grid *Finance Intern* **Jan 2024 - Mar 2024**
- Accounting controls: Reviewed 4,000+ vouchers and source documents during expense review and close, helping resolve 30+ discrepancies. Reconciled asset, revenue, cost and cash-flow inputs for three financial statements.

State-owned Assets Investment Holding *Investment and Financing Intern* **Dec 2022 - Feb 2023**
- Investment support: Compiled industry and financial data for project initiation and feasibility analysis. Updated financing submissions and tracked approvals, delivering a milestone log and follow-up actions.

Tara IHI (AI Startup) Growth Operations **Mar 2026 - Present**
- Growth: Planned Xiaohongshu content and private-channel acquisition for an AI startup. Tracked conversion and adjusted outreach, attracting 1,000+ targeted users in about two weeks and compiling channel feedback.
- Community: Supported a 10,000-member community and coordinated speakers, schedules and materials for sharing events. Compiled event reviews and user feedback to inform subsequent content planning.

SELECTED RESEARCH AND PROJECTS

Legal AI Workbenches | Case Intake and IPO Support **Oct 2026**
- Case intake: Built transcription, screenshot OCR and evidence timelines with Codex. Retained originals, line references and audio intervals for manual review before exporting draft pleadings and evidence lists.
- IPO support: Organized public legal Skills and practice guides for lawyers around questionnaires, regulatory inquiries and contracts. Documented expected outputs and human checks based on equity filing experience.

MusicPilot | Scenario-based Music Product **Oct 2026**
- Product design: Turned natural-language music requests into scenarios, preferences and delivery requirements. Built clarification cards and routing for playlists, commercial music, video and original creation in an interactive prototype.
- Workflow delivery: Connected requirements to Dify and implemented playlist editing, timelines and export. Checked duration and audio windows in a 90s case; catalog and licensing information remained simulated.

Digital Finance and Firm Productivity | Independent Research **Nov 2025 - Mar 2026**
- Empirical analysis: Matched a digital financial inclusion index with A-share financial and location data in Stata. Cleaned and winsorized the panel, then ran fixed-effects, robustness and financing-constraint tests and exported regression tables.
